

## **Unit Summary: Cell Structure & Function**

### Key Vocabulary:

- Cell membrane, Nucleus, Cytoplasm, Mitochondria, Ribosomes

### Core Concepts:

- All living things are made of cells.
- Cells have specialized structures (organelles).
- Plant vs. Animal cells have differences (e.g., cell wall, chloroplasts).

### Practice Tips:

- Use labeled diagrams to memorize parts.
- Compare and contrast plant and animal cells.
